

ISACA Germany: Events, seminars

Dear All,

We would like to remind you once again of the upcoming **Meetup** of the new initiative **She@ISACA** of the ISACA Germany Chapter. The event will take place **on 9 April from 5 pm in Munich**. After two keynote speeches in English, participants will have the opportunity to end the evening in a cosy pub.

You can find **more information** about the Meetup and how to **register here**.

EVENTS

IT GRC Congress 2024

The **programme** of the IT GRC Congress 2024 is now **online**: **IT GRC Kongress – Security, Audit, Governance, Riskmanagement, Compliance (grc-kongress.de)**. You can expect relevant specialist contributions from industry and business, banks, IT system houses and regulatory institutions. In addition, numerous ISACA specialist groups will present their activities and results.

We are particularly pleased that AI expert **Tina Klüwer** from the BMBF and successful coach **Holger Stanislawski**, who will report on what business can learn from professional sport, have agreed to attend.

Come to **Hamburg** and join us **on 3 and 4 June 2024** when top-class talks will cover risk management, IT governance and security in the age of AI.

General Meeting 2024

In order to enable all our members to participate in this year's Annual General Meeting, it will take place **hybrid** this year.

Further information, such as the agenda and the possibility to register, can be found on our website under **Mitgliederversammlung – ISACA Germany Chapter e. V.**

Please note that **registration** will only be activated **from 22 April 2024**.

Innovation & Tech Talk Online Event

The **Innovation & Tech Talk expert group**, in cooperation with the **ISACA Austria Chapter**, invites all ISACA members to this month's Tech Talk **on 25 April 2024 from 11-12 am** on the following topic: **Practical example of cybersecurity in auditing - CIS framework and log data analyses**.

The practical example by **Aloba Babatope** (IT auditor at UniCredit Bank Austria and member of the ISACA Austria Chapter) comprises two main components. Firstly, the design of a new audit programme based on the NIST CIS Controls Framework. Secondly, the transition from a sample-based approach to a holistic analysis of the entire data population through the use of big data analysis tools.

You will receive **1 CPE** for attending. Further information about the speaker and the link for registration can be found **here**.
